1. What are your views on the needs of young children (prenatal to age 5) and what specific steps would you take to address these needs?

Family involvement, high-quality educators that will teach. I would look at the whole situation that involves the student. Environment, language, and racial make-up.

2. What steps would you take to ensure that children birth to age five have access to high-quality and affordable early learning programs?

Increase training and learning to caregivers and educators.

3. What steps would you take to stabilize and sustain North Carolina's early education system and child care workforce as we approach the end of the federal child care relief funding?

Look to establish wage standards across the early childhood system, wage based on qualifications and experience, and provide incentives that allow for better pay.

4. What are your views on how to provide all children with access to a sound, basic education beginning in early childhood?

Leandro is a decision by the courts that favors our youth and should be implemented without hesitation. Denying our youth the basic, sound fundamentals of education is denying our future success and our youth the ability to thrive in a challenging world.
